The Dover News cites some rather remarkable coincidences in connection with the death of Postmaster William Pepper of Germantown. He was born July 15, 1838, and died July 15, 1901, the sixty-third anniversary of his birth. His term as Postmaster expired on the day of his death, and he had been Postmaster 15 years.

No. 16 on the C. and O. yesterday had a car load of children from the poor homes in Cincinnati, for which The Post had found homes in the country for a couple of weeks' frolic. Among the Masonicans who had offered to take the little ones were Mr. Charles Kirk of Dover, two, Mrs. Gusie O. Lloyd of Germantown, two, and also D. W. Reese of Zanesville, one.

Mr. George Morgan Stricklett was brought enough to consider that he was yesterday and in company with Miss Berry gave Miss Roberts Cox a song recital, much to her delight and to the pleasure of the few who were fortunate enough to hear him. MRS. K. KNOVESHAW.

Death Near Stonelick Last Night of This Exemplary Woman.

Mrs. Katherine Knoveshaw died last night at her home near Stonelick of paralysis.

At 9 o'clock yesterday morning she was attending to her home duties in excellent health and spirits, and sat down to prepare some apples. Without a moment's warning the fatal stroke prostrated her, and she continued in an unconscious state until 11 o'clock last night when she died.

She was the widow of John Knoveshaw, a sturdy farmer and a thrifty citizen who passed away a short time ago.

To them came eight children—three sons and five daughters, of whom Henry is a citizen of Maysville.

Mrs. Knoveshaw was 61 years old and once before had suffered a stroke of paralysis from which she quickly recovered.

The funeral will occur from the home tomorrow afternoon at 2:30 o'clock with burial in old Stonelick Cemetery.

THE RAILROAD VICTIMS.

One Dying, the Other Recovering—Suit Threatened.

Charles Duncley, one of the three boys who met with such a horrible accident near the C. and O. Depot last week, by being crushed under a train of cars, was reported yesterday morning to be rapidly sinking.

Parents and other members of the family were summoned to Speers Hospital, where the little fellow's sufferings were drawing to a close.

Elmer McCabe, the other lad, whose limb was amputated near the knee, is said by the sisters at St. Elizabeth's Hospital to be improving.

Yesterday's Times-Star says the father of Willie Strauburg, whose death resulted soon after the accident, will, it is stated, bring an action against the railroad company for allowing his boy to ride on the train.

As Strauburg was not riding on the train, but was sleeping on the track, when he was killed, why can't the Railway Company make a counter-claim charging him for loquacity?

DRINK PURE WATER AND ENJOY GOOD HEALTH

The long-continued drouth throughout the county has made the question of stock water a serious problem. Many farmers are compelled to haul water for miles, and some of those in the interior who are not fortunate enough to possess good springs or wells come all the way to the Ohio to get enough of the precious fluid to keep their stock alive. What must be the condition of the wells and cisterns in a section where there has practically been no rain all summer? Can that water remains be pure, untainted or fit for household purposes? These are questions that require no answers.

DRINK PURE WATER AND ENJOY GOOD HEALTH.

To have pure water equip your well or cistern with a Bucket Pump and Water Purifier. We sell them. It is the best Pump on earth for wells or cisterns. It has no superior for durability or price for wells up to sixty feet. A ten-year-old boy can draw water with ease from a sixty foot well. It will not freeze, as the cups discharge themselves, having sold the test of 88 degrees below zero. It saves its cost in doctor's bills alone in six months.

DRINK PURE WATER AND ENJOY GOOD HEALTH.

For every gallon of water drawn, a gallon of air is circulated through the water, thus ventilating, vitalizing and purifying the water, destroying all germs of disease and removing all impurities from the foulest well or cistern in a few days ordinary use. We also offer and recommend the I. X. L. Patent Galvanized Steel Chain Pump Curb and Galvanized Steel Tubing.

SOME

Corset Truths!

When you buy a Corset isn't it a joy to find the kind that fits—just snugly enough, just comfortably enough? Corsets that fit from the day you purchase them to the day you come back for another pair. All this is embodied in our P. N. Corset. We never offered a corset which has met with such a cordial reception. Sales climbing every day. Customers are the best advertisers. A woman buys a P. N. and tells a friend of its comfort and general satisfaction. She in turn buys one and tells a third and so it goes. There's solid merit in a P. N. There's economy and comfort. In a word there is more in a P. N. that women will appreciate than in any corset made.

Fine Couture or batiste cut on a careful bias to give the Corset straight front, neat proof boning, cork stay protectors—these are a few of the merits.
